TITLE	Fall 1980 Minnesota Post-Secondary Education Enrollment Survey. Basic Data Series Report Number 9.
INSTITUTION	Minnesota Higher Education Coordinating Board, St. Paul.
PUB DATE	Apr 81
NOTE	607p.; Not available in paper copy due to marginal legibility of original. Microfiche packet attached to original has been removed by ERIC.
AVAILABLE FROM	Higher Education Coordinating Board, 400 Capitol Square Building, 550 Cedar Street, St. Paul, MN 55101.
EDRS PRICE	MF03 Plus Postage. PC Not Available from EDRS.
DESCRIPTORS	Average Daily Membership; *College Freshmen; College Students; *Enrollment Rate; Full Time Equivalency; High School Graduates; *Postsecondary Education; Private Colleges; *School Demography; State Colleges; State Universities; Student Attrition; Technical Institutes; Trend Analysis; Two Year Colleges
IDENTIFIERS	*Minnesota

ABSTRACT

Minnesota public and private postsecondary education enrollment data for fall 1980 are presented. The report's six sections contain: (1) fall 1980 headcount enrollments; (2) fall 1980 institutions enrollment reports; (3) full-year equivalent enrollments and average daily memberships; (4) enrollment by county of residence; (5) new entering freshman participation rates; and (6) participation rates of 1980 high school graduates. The fall 1980 enrollments, county of residence data and participation rates are based on enrollments as of the 10th day of classes for fall term, 1980. The full-year equivalent enrollment information is based on credit hours of instruction generated on-campus during fall through spring of the academic year, in off-campus or extension courses, and during summer session. Average daily memberships for the area vocational-technical institutes are for a fiscal year. The county of residence and participation rate sections contain data for each system and for the state. A microfiche packet is attached to the back cover that contains county of residence and participation rate data for individual institutions. (Author/LC)

HUMAN RIGHTS STATEMENT

The Minnesota Higher Education Coordinating Board has committed itself to the policy that there shall be no discrimination on the basis of race, creed, color, sex, age, handicap, or national origin in its programs, activities or employment policies as required by Title IX of the Education Amendments of 1972, Rehabilitation Act of 1973 and other applicable laws, regulations and executive orders.

Inquiries regarding compliance may be directed to Office of Personnel and Affirmative Action, Minnesota Higher Education Coordinating Board, 400 Capitol Square Building, 550 Cedar Street, St. Paul, MN 55101, (612) 296-3974.

FALL 1980 MINNESOTA POST-SECONDARY EDUCATION ENROLLMENT SURVEY

Prepared by the Staff of the
Minnesota Higher Education Coordinating Board

April 1981

PREFACE

The Minnesota Higher Education Coordinating Board annually publishes a report of enrollments in Minnesota post-secondary education. Data contained in this report are used by educational planners, policy-makers and the public for descriptive and research purposes.

The enrollment data presented here were provided by Minnesota public and private post-secondary education institutions in fall 1980.

This report of basic enrollment data contains six sections: (1) Fall 1980 Headcount Enrollments, (2) Fall 1980 Institution Enrollment Reports, (3) Full-Year Equivalent Enrollments and Average Daily Memberships, (4) Enrollment by County of Residence, (5) New Entering Freshmen Participation Rates, and (6) Participation Rates of 1980 High School Graduates.

The Fall 1980 Enrollments, County of Residence data and Participation Rates are based on enrollments as of the 10th day of classes for fall term, 1980.

The Full-Year Equivalent Enrollment information is based on credit hours of instruction generated on-campus during fall through spring of the academic year, in off-campus or extension courses, and during summer session. Average Daily Memberships for the Area Vocational-Technical Institutes are for a fiscal year.

The County of Residence and Participation Rate sections contain data for each system and for the state. The microfiche packet attached to the back cover contains County of Residence and Participation Rate data for individual institutions.

PART 1

FALL 1980 HEADCOUNT ENROLLMENT

Part 1 contains five-year summaries of regular (on-campus) headcount enrollment data for Minnesota post-secondary education institutions arranged by system. State enrollment totals are presented at the end of each report. Students enrolled in off-campus or continuing education and extension programs are not included in the five-year summaries.

A Five-Year Summary of Total Headcount reports total headcount enrollment for regular students as of the 10th day of classes for fall terms 1976 through 1980. For area vocational-technical institutes, the headcount reported is for the first quarter. The "percent change" columns compare fall 1980 enrollment with fall 1976 and fall 1979.

A Five-Year Summary of Full-Time and Part-Time Enrollment shows the full-time/part-time distribution of total regular headcount. The table also displays each institution's full-time/part-time ratios for 1976 and 1980.

A Five-Year Summary of Male and Female Enrollment summarizes for each institution the distribution of total regular headcount by sex and shows the 1976 and 1980 male/female ratios.

A Five-Year Summary of Total New Entering Freshmen presents total regular new entering students at each institution for each fall, 1976 through 1980. New entering students are those who previously have not attended a post-secondary institution. The percent changes in number of new entering freshmen from 1979 to 1980 and from 1976 to 1980 are displayed.

PART 3

FULL-YEAR-EQUIVALENT ENROLLMENT AND AVERAGE DAILY MEMBERSHIP

The Academic and Fiscal Year 1979-80 Full-Year Equivalent Enrollment and Average Daily Membership tables display enrollments by level for academic year 1979-80 for collegiate institutions for fiscal year 1980 (July 1, 1979 through June 30, 1980) for vocational institutions.

For public collegiate institutions, the following tables show full-year equivalent (FYE) enrollment for the regular academic year on-campus and in off-campus or extension programs. Each public system of post-secondary education calculates its summer session FYE enrollment using a different formula, resulting in incomparable data. Therefore, for summer session, this report shows student credit hours rather than FYE data. For the Community College and State University Systems, the reported summer session precedes the academic year. For the University of Minnesota, data are for the summer session following the academic year.

Average daily memberships (ADM) are shown for the public area vocational-technical institutes (AVTIs). For private institutions, the data displayed are for the regular academic year, on-campus. The private colleges have few extension students, and summer session FYE data are not available.

Full-year equivalent enrollment counts result from dividing the total number of credit hours generated that year by the normal full-time credit hour load at an institution. In most cases, credit counts are the totals of those generated at the end of the terms and do not include withdrawals. End-of-term data were not available for several private institutions, which provided instead the total 10th day credits for all terms.

For area vocational-technical institutes average daily memberships are based on clock hours of instruction. One ADM receives 1050 hours of instruction.

A Five-Year Summary of Full-Year Equivalent Enrollment and Average Daily Memberships display for academic years 1975-76 through 1979-80 full-year equivalent enrollments at collegiate institutions and average daily memberships at area vocational-technical institutes for fiscal years 1976 through 1980. On-campus, off-campus or extension, and summer session enrollments are displayed for all public collegiate institutions. Enrollment in extension for credit courses at the private colleges is negligible and, therefore, not shown. Summer session enrollment data for private institutions are not available.

PART 4

FALL 1980 COUNTY OF RESIDENCE REPORT BY SYSTEM

The County of Residence Report by System contains system and state aggregations of data collected in fall, 1980. The report shows, for Minnesota new entering students, home counties by level of instruction. Students from individual neighboring states, all other states and foreign countries are also tabulated by level of instruction. County of residence data are presented by sex for new entering freshmen for each system.

The County of Residence report includes regular, on-campus students only. Extension students are not included. The county or state of residence is the place the student resided at the time of application.

The University of Minnesota - Twin Cities Campus report includes in the full-time graduate student category 385 Mayo Graduate School of Medicine students. Included among professional students are 866 special students enrolled in collegiate units that offer first professional degrees.

The microfiche packet inside the back cover contains County of Residence reports by institution.

PART 5

FALL 1980 NEW ENTERING FRESHMEN PARTICIPATION RATES BY SYSTEM AND COUNTY

The New Entering Freshmen Participation Rates by System and County show participation rates of new entering freshmen by sex from each Minnesota county. The rate is derived by dividing fall 1980 new entering students from a county by June 1980 high school graduates* in that county, times 100. The new entering freshmen reported include students who graduated from high school prior to June 1980. Participation rates by county have been available since 1973 and provide useful data for trend analysis of college-going behavior for each county.

The participation rate report displays two rates for each planning region and for the state: a "total" rate and an "average" rate. The "total" rate is the sum of the new entering freshmen from the region (or state) divided by the total high school graduates in that region (or state). The "average" rate is the sum of the county rates within the region (or state) divided by the number of county rates in the region (or state).

The microfiche packet inside the back cover contains participation rate reports by institution.

PART 6

MINNESOTA NEW ENTERING FRESHMEN PARTICIPATION BY INSTITUTION AND YEAR OF HIGH SCHOOL GRADUATION

Part 6 contains data obtained from a survey conducted for the first time in fall 1980, "New Entering Freshmen by Year of High School Graduation." Each institution reported, for Minnesota residents, the year of high school graduation of fall 1980 new entering students by sex.

Fall 1980 Participation Rates of 1980 Minnesota High School Graduates presents the rate of participation of the state's 1980 high school graduates for each Minnesota post-secondary institution, system and statewide. The rate is calculated by dividing the number of new entering students who were 1980 high school graduates* by the number of 1980 Minnesota high school graduates, times 100. Participation rates are presented for males, females and total Minnesota new entering students.

Distribution of Fall 1980 Minnesota New Entering Freshmen by Year of High School Graduation shows how 1980 Minnesota new entering students were distributed with respect to year of high school graduation. Data are presented for each post-secondary institution, system and for the state.
